Professional Summary

Junior Software Engineer with a background in customer support, teaching, and editing. My unique experiences have allowed me to embrace full stack development and work with tools and technologies to create organized, user-centric applications that appeal to all users.

Projects

- **Current Weather App** - https://jennymerfish.github.io/react-weather-app
  A one page React app that takes input from the user, stored in local state, to query the Open Weather API with an asynchronous function and render current weather conditions for the city of choice with JSX. Styled with a light coating of CSS.

- **A Movie Search Engine** - https://jennymerfish.github.io/MovieSearch/
  A website that uses the OMDB API and an asynchronous JavaScript function to return JSON data, and then loops through the returned objects to render the movie poster and title using HTML DOM manipulation. Each poster is a clickable link to the IMDB page for that movie.

- **Don't Die** - https://github.com/JennyMerFish/digitalCrafts/blob/main/week-2/day-3/dont-die.py
  A fun text-based game that uses multiple and nested if statements and classes to take the user on a humorous journey where they fight a villain. Built strictly in Python and played on the CLI.

Skills

HTML5, CSS3, React, JavaScript, Python, Node.js, PostgreSQL, JSON, REST APIs, Bootstrap, Git

Education

Digital Crafts - Full-Stack Software Development, Houston, TX August 2021

Full-Stack Web Development: Immersive course covering HTML, CSS, JavaScript, and Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and MySQL.

Work History

Preschool Teacher – New Hope Preschool and Education Center 8/19 – 3/20

- Maintained a classroom with safety and sanitation standards as outlined by the State of Texas
- Created and implemented tailored curriculum for 18 students, applicable to their levels and needs.

Bartender – Cheers 2U 9/18 – 3/20

- Exhibited excellent client relations by anticipating needs and establishing rapport with guests.
- Obtained TABC certified and followed the State of Texas standards on sanitation and distribution.

Client Coordinator -- RTUI 4/09 – 2/13

- Coordinated between clients and a team of graphic artists to design, edit, and print advertisements and coupons on the back of receipts across North America.
- Proofed and revised hundreds of prints daily, very high-level attention to detail.
- Answered customer calls, questions, and issues in a timely and professional manner.
